## FROM THE DESK OF THE PRINCIPAL

The paradigm of education shifts from the preview of simple transmission of knowledge to social emancipation of the citizens by knowledge empowerment and innovative oriented initiatives for a better society. Teachers should not only be trained mechanically to work in the sea of knowledge but they should also acquire highly developed extra dimensions of personality and decision making for sustainable future. Since, the present 21<sup>st</sup> century is knowledge based society to culminate the challenges ahead, teachers should be prepared for a vibrant future.

It is an imperative to create accountable and committed teachers through quality based teacher training programme to mould the character of students to become an ideal citizens.

In our teacher training programme, a synergetic approach of curriculum and new blending pedagogy is implemented to bridge the gap of present and future society.
