Routine operation for Maintenance and Utilization of Physical, Academic and Support Facilities

To attain maximum utilization of the physical, academic and support facilities, few routine operations have been outlined. Optimum maintenance of the facilities is ensured through:

- By allocating responsibilities to faculty and students on proper usage of infrastructure.
- Enhancement and maintenance of the facilities by utilizing funds allocated to the college.
- Proper maintenance of recreational facilities and washrooms through yearly renovation.
- State of art improvement through up gradation of lab facilities in various departments by setting up Committees.
- Yearly renovation of classrooms, labs, faculty rooms and library.
- Sharing of inter college know-how for optimal utilization of various equipment and facilities.

The main objective of D.M College of Teacher Education is to make optimal utilization of the resources and take the college to a greater height in-tune with quality teacher education and unique growth of the college.
