

DOCUMENTS SHOWING THE NO. OF TEACHERS AND STUDENTS USING LIBRARY, 2021-2022

The situation in Manipur ,in particular and India as a whole were witnessed a turbulence of covid-19 pandemic from the year 2020 to the beginning part of 2022. During this period, student as well as teacher could not have the opportunity to read books from the library. On the top of these, library works were very grim. Therefore most of the teacher and student paid less attention to the book in the library rather they gave thrust on the on the online class conducted by respective teachers from time to time. The first quarter of the year 2022 was improving for the whole state and gradually attendance in the library increased slightly. Perhaps, the heterogenous distribution of number of attendance of teacher and students in the library is the disturb social system of the time .Even co -scholastic part could not be done properly and they were conducted in a very limited condition. Moreover college had no ability to encourage student to attend library because state Government instructed strict SOP's of public gathering during these periods.

Number of teachers and students using library during the academic year 2021 2022.(not less than 20 working days)
